LET'S GO GREEN. TOGETHER.

Closed Loop Recycling is an industrial launderer of absorbents and PPE. We are proud to offer the most environmentally friendly laundering process in the country.

Our purpose is to solve problems, execute with precision, and develop partnerships to deliver value. We help companies go green and save money in areas that have been largely dominated by disposables.

#### ABOUT US

## Our five principal core values.

- 1 CONTINUOUS IMPROVEMENT BOTH PERSONALLY AND PROFESSIONALLY
- 2 LEGENDARY SERVICE
- 3 REINVENT THE WASTE MANAGEMENT INDUSTRY
- 4 GROW GREAT RELATIONSHIPS IN ALL DIRECTIONS
- 5 CELEBRATE SUCCESS

## WHAT WE DO

# Our service.

We offer customized solutions to fit your recycling needs. PPE recycling can be easy with our scheduled pickup / delivery and monthly reporting. To make pricing simple we charge one flat rate per glove.

### PRODUCTS

CLR provides 55-gallon DOT approved collection drums in place of your landfill bin.

### SERVICES

To enhance our service, we create a layout of your facility showing the locations of our collection points and route to access these points.

### PROCESS

We take the used PPE and dirty collection drums back to our facility to process for laundering and reuse.

## HOW WE DO IT

# Our process.

Laundering is a sustainable choice for your PPE. Our green process helps to prolong the life of your PPE and save upwards of 80% on annual spend.

### WEIGH

At our facility, each drum is weighed to calculate the waste diversion.

### SORT

PPE is collected as single-stream. We separate and sort the PPE while checking for unnecessary debris.

### CLEAN

The PPE is then cleaned by the recommended care instruction, whether it be dry-cleaning or water washing.

### METAL DETECTION

Once cleaned, items are metal detected. Flagged PPE items are then taken out of rotation to ensure employee safety.

### QUALITY CHECK

Once the PPE has been metal detected, each item is inspected by hand for quality control. Holes, rips and tears are identified as “scrap” and taken out of rotation to ensure employee safety.

### BUNDLE

The PPE is then paired and repackaged, ready to be returned to the client.

### REPORT

Once bundled, a processing report is created to identify scrap items per PPE type and a sustainability report is created to identify total waste diversion.

## WHY RECYCLE PPE?

# Benefits.

CLR's laundering process offers many benefits including cost savings, environmental impact and a focus on quality control.

### **COST SAVINGS**

Reduce the amount you spend on materials, especially on high cost gloves such as Kevlar®. Laundering, on average, saves upwards of 80% compared to buying new.

### **ENVIRONMENTAL**

Switch to a sustainable laundering program and increase the lifespan of your PPE, while reducing the amount of waste sent to landfills.

**Get ISO14001 Certification qualified.**

### **SAFETY**

Laundered gloves are removed of substances that may cause skin irritation. Zero hazardous chemicals are used during the laundering process and all items are metal detected and hand inspected for quality control.

## TYPES OF PPE WE LAUNDER

**KEVLAR® GLOVES**

**NITRILE AND PU DIPPED GLOVES**

**STRING KNIT GLOVES**

**LEATHER GLOVES**

**CUT SLEEVES**

**FR APRONS AND CHAPS**

**FR JACKETS**

**SAFETY VESTS**

**SAVE  
UPWARDS  
OF 80%**

# Free training programs. That's right, free.

As a part of our services, we provide free training to your employees, eliminating the hassle of adjusting to a new program. Find an option below that fits your needs.

## **CLASSROOM TRAINING**

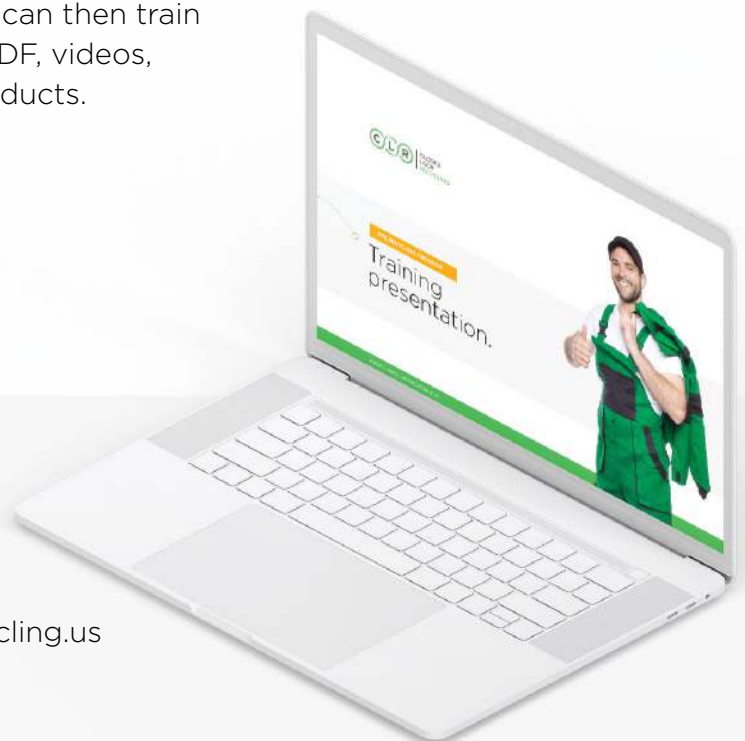

This is a full comprehensive training program that includes a downloadable PDF that covers our process, products, applications and best solutions that are tailored for your facility. We will also review frequently asked questions to make sure your team is up to speed. This training undoubtedly yields the highest success rate with our clients and only takes about 15 minutes with each shift.

## **SAFETY MEETING TRAINING**

This is meant to be a quick training session that will notify employees of any changes to our products or collection areas. We will review the benefits of the program in a short 5 minute huddle that can be performed on floor.

## **SECONDHAND TRAINING**

We will train your departmental managers who can then train their own teams. We provide a downloadable PDF, videos, literature and emails about our process and products.

## **TRAINING EQUALS SAVINGS**

Correct training in a facility can reduce your cost with CLR by up to 20%. Visit [www.closedlooprecycling.us](http://www.closedlooprecycling.us) for more information on our training programs.

# Monthly sustainability reports.

Our clients love to use our custom reporting to support their corporate green initiatives and ISO 14001 Certification.

## SUSTAINABILITY REPORTS

CLR will eliminate your waste manifest and provide a Sustainability Report instead. Our reports document the amount of solid and liquid waste you have diverted from landfills or incineration. Reports are provided on a monthly basis at no additional cost.

## PPE PROCESSING REPORTS

We provide PPE Processing Reports as part of your service. These reports are provided each time we return laundered PPE to your facility and document the amount of scrap identified for each PPE type.

## SAMPLE MONTHLY REPORTS

## INTERESTED?

# Sign up for a free trial.

Let CLR do the dirty work. We offer a no-risk, free trial that results in a detailed proposal for your facility.

### NO-RISK, FREE TRIAL

Our goal is to make the quoting process easy for you. Not only do we provide the collection container and transit, we will launder the items free of charge and return them to your facility with a per-pair quote. We offer two options for free trials.

# 01

## TRIAL BAG

OPTION 1

### HOW IT WORKS:

CLR will send out a bag that holds approximately 100 pairs of gloves.

Once the bag is filled with used PPE items and sealed closed, CLR will provide a pre-paid shipping label for transit back to our facility. Once processed, CLR will return the laundered items with a per-pair quote.

# 02

## COLLECTION DRUM

OPTION 2

### HOW IT WORKS:

CLR will provide a collection drum with signage that holds approximately 400 pairs of used gloves.

Once full, CLR will pick up and provide transit back to our facility. Once processed, CLR will return the items with a per-pair quote.

*\* Based on location availability*

## CUSTOMER TESTIMONIALS

# What our customers are saying.

### OUR SERVICE

"Their customer service, sales and on-site delivery personnel are very professional, safe and understanding of AMI's overall plant goals and activities."

"CLR has consistently provided great service to us. Closed Loop Recycling is an innovator in the recycling field."

### OUR PROGRAM

"As an environmental professional, I feel Closed Loop Recycling is the perfect program to manage absorbents."

"We've had a great relationship with the team at Closed Loop Recycling. Their process creates no landfill waste and no waste water, that's the best of both worlds."

### OUR PRODUCTS

"Our facility was raised to a level 2 in part to CLR's program and products. When we had pig mats, this place was a pigsty."

"CLR's reusable products have helped us shrink our carbon footprint, by providing Penn Aluminum Int'l with clean reusable absorbent mats, gloves and rags."

The AISIN logo consists of the word "AISIN" in a bold, blue, sans-serif font.The CAMERON logo features a red circular icon with a white stylized 'C' inside, followed by the word "CAMERON" in a bold, black, sans-serif font.The VEOLIA logo features a red circular icon with a white stylized 'V' inside, followed by the word "VEOLIA" in a bold, red, sans-serif font.The Futaba logo features the word "Futaba" in a bold, orange, sans-serif font.The CARLISLE logo features the word "CARLISLE" in a bold, blue, sans-serif font, with a stylized underline.The PENN logo features the word "PENN" in a bold, white, sans-serif font, enclosed within a dark blue square border.The text "WE ARE THANKFUL." is written in a large, bold, white, sans-serif font, set against a light gray background.
